Your New and Improved Bill is Here

Your newly redesigned bill from ATMC is here! We’ve included a quick reference guide, which can be found on the last page of this month’s statement, to help you familiarize yourself with the bill’s new layout and improvements. As an added convenience for paperless billing customers, we are now including an electronic copy of our Connecting You newsletter as part of each online statement available at myATMC.

We’re excited to bring you this fresh new look and we think you will be pleased with it, too! If you have additional questions about how to read and understand your new bill, please reach out to ATMC at 910-754-4311 or visit atmc.com/knowyourbill.

ATMC Employees Raise Funds for Local United Way

ATMC and its employees recently contributed more than $10,000 to help local residents in need by supporting the cooperative’s annual United Way campaign. “Our employees always go above and beyond to support our community,” said Keith Holden, ATMC CEO. “We are proud to support the United Way of Cape Fear and thankful that we are able to do so each year because it improves the lives of so many living in our area.”

ATMC has contributed more than $400,000 to the United Way over the last twenty years.

FOCUS Fiber Optic Construction Has Begun on Holden Beach

ATMC has begun construction to replace aging copper facilities on Holden Beach with FOCUS fiber optics. Holden Beach is one of the few remaining areas where ATMC customers are served only by copper, unlike other areas where fiber optic or DOCSIS cable modem technology is available. Fiber optic technology will make services on the island more reliable since fiber is made from glass and is not susceptible to rust and corrosion from the salt air environment.

The $5.5 million network investment planned for Holden Beach will take approximately one year to complete and will bring nearly 2,500 homes and businesses access to faster speeds. You can check the construction progress by visiting www.iwantATMC.com.
As part of Project 2019, faster Internet with speeds up to 300 Mbps is now available for residents living in the Mill Branch community of Ash. Construction to upgrade service for areas west of Winnabow in the Rabontown Community of Town Creek is already underway and is on schedule to be made available this Spring.

Project 2019 will make faster Internet and more HD channels available to over 1,000 members in rural areas served by ATMC this year. To find out when your area will be upgraded, call 910-754-4311 or visit atmc.com/project2019.

**ATMC Grant Supports Bouncing Off the Walls Program at South Brunswick High School**

South Brunswick High School students are enjoying new fitness balls in their classroom thanks to a grant from ATMC. The fitness balls help the students to channel their energy and be able to focus and pay attention to lessons.

“We are so thankful to ATMC for the grant that helped fund fitness balls for our classroom,” said Donna Mooneyham, Exceptional Children Services Teacher at South Brunswick High School. “Through the Bouncing Off the Walls Program, we are able to help the students learn in a fun and stimulating environment.”

For more information about ATMC’s community and education grants programs, visit atmc.com/grantprogram.

**Advertise Your Business in the 2019 ATMC Telephone Directory**

Don’t miss out on the opportunity to showcase your business in the 2019 ATMC Telephone Directory. When you purchase an ad in our telephone directory, you’ll get an ad/listing that can also be accessed online or on any mobile phone via our ATMC Search App.

Data Publishing is the only authorized yellow pages sales agent for ATMC and one of their representatives will be contacting existing advertisers soon. If you would like to find out how you can grow your business by having your business included in the 2019 ATMC Telephone Directory, please call 888-328-2782.
